

Problems, worries and concerns are becoming an important part of one's life in today's fast and complex time. Sometimes a student is unable to concentrate on his/her studies as because of the various constraints and it become a serious matter associated with various obligations arises. We, the teachers of Mugberia Gangadhar Mahavidyalaya have been working constantly to solve various problems of the students who come to study in this institute. Almost all the departmental teachers have been counseling the needy students regularly and helped them to confront with the challenges they faced in their day to day life.

Personal counselling does have many important sides; it is one of the areas that are known to students as supportive and non-judgemental. As because of the rural area many students comes with feeling isolated or depressed because of their financial constraints, sometime they came with problems associated with love relationships, parents, classes, attendance etc. In many cases, we have seen that students aren't well aware what the root cause of the problem is. In such case they prefer to go away from home without informing their parents. And in those cases personal counselors usually meet with the parents and ask for a professional doctor to treat them.

Personal counseling at the time of admission is given priority by the management. Many students who do not have any clear idea about the subject for which they should opt for, they have been guided by the counselors. Apart from that, many teachers during the mid-session meet with the students and guided them about job opportunity. If there is any crisis arises, the counselors appear in between any tries to solve with proper guidance. Mentoring is also a part of the counseling process; departmental teachers including the female non-teaching staffs made effective efforts to solve various student related problems. In most cases the students are coming from the village area, they are pure, fresh and do not have enough maturity to solve social problems at their own. Whenever there was any problem related to social or household penuries the authority along with members of the teaching faculty serve as a friend of that student and help them to sort out the matter with immediate effect .
